Hilmot MDR Belted Horizontal 30" Zone	52
Hilmot MDR Belted Decline 30" Zone	55
Hilmot MDR Belted Incline 30" Zone	61
Hilmot MDR Belted Horizontal 36" Zone	63
Hilmot MDR Belted Decline 36" Zone	66
Hilmot MDR Belted Incline 36" Zone	70

INTERMEDIATE MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot MDR straight modules are available in the widths, lengths and zones you need for your high-speed, light to medium duty distribution system. Pre-wired conveyor sections can be networked with a variety of technologies and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain. Zero pressure accumulation is standard.

KEY FEATURES AND BENEFITS

- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- Standard IP54

INTERMEDIATE MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot MDR straight modules are available in the widths, lengths and zones you need for your high-speed, light to medium duty distribution system. Pre-wired conveyor sections can be networked with a variety of technologies and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain. Zero pressure accumulation is standard.

KEY FEATURES AND BENEFITS

- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- Standard IP54

HILMOT MDR CURVE

CURVE MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot MDR curve modules are available in widths and degrees you need for your high-speed, light to medium duty distribution system. Pre-wired conveyor sections can be networked with a variety of technologies and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain. Zero pressure accumulation is standard.

KEY FEATURES AND BENEFITS

- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Ultra Durable ribbed tapered roller design for maximum traction and longevity

- Built-in photo eye, one per zone
- Electrical components have quick connect terminals for easy installations and expansion
- ABEC rated precision bearings in the idler rollers
- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- Standard IP54, Up to IP67 Rating

HILMOT MDR MERGE

MERGE MODULE - Series 1500 Controls Platform: H-20 Auto Control

Hilmot MDR merge modules provide a 30° spur for merging. It attaches to a machine conveyor to achieve a high-rate of 40 cases per min. The units are modular and come preassembled as one unit (both spur and mainline). Built in and factory-mounted guard rail are included. Pre-mounted in-frame photo eyes are prewired. No pneumatics required. The all 24VDC electric operation ensures a consistent and guiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Merge Rate up to 40 cases per minute
- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion

- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- IP54 Standard

HILMOT HCAT90

TRANSFER MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot HCAT90 transfer modules provide a 90° right angle transfer for sortation, distribution or assembly applications. It is powered by 24 volt DC electricity, with rates up to 40 products/min. The HCAT90 utilizes one MDR and two Geared Motors to provide motion of the rollers, belts, and lifting. There is no electric actuator or pneumatic cylinder reducing overall project cost and installation effort.

KEY FEATURES AND BENEFITS

- Rate up to 40 products per min (Conditional on Application)
- Standard to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion

- Using durable Timing Belts
- Available ZPA Analyzer allows for system diagnostic and commissioning
- IP54 Standard, Up to IP67
- Positive Drive, O-Band
- Programming Required

HILMOT MDR LIFT GATE

GATE MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot MDR lift gate modules provide safe egress breaks in the conveyor line that are strategically placed for pedestrian or push cart traffic. Typical gates consist of a 36" pivot bed with 12" tangents; adding a clear distance for a walk way. Other sizes and swing gates are available upon request. All lift gates come with gas springs to assist the user in moving the gate up or down. Pre-wired conveyor sections are networked with a variety of technologies and are easily configured for multiple applications.

KEY FEATURES AND BENEFITS

- Provides safe egress break in the conveyor line
- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion

- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- IP54 Standard

HILMOT MDR SPUR CURVE

MERGE MODULE - Series 1500 Controls Platform: H-20 Auto Control

Hilmot MDR spur curve modules deliver a convenient solution for consolidation applications and have a 90° spur for tighter footprints. Built in and factory-mounted guard rail are included. Pre-mounted in-frame photo eyes are prewired and protected from product. No pneumatics required. The all 24VDC electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Merge any line that is not perpendicular to the trunk line
- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- IP54 Standard

HILMOT HCAT30

DIVERTER MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot HCAT30 diverter modules provide a 30° angle to move packages and totes to a separate line. The design allows for the unit to be placed close together to provide sortation-type package flow. It uses MDR technology to drive the rollers, belts and lifting motion. It is fully powered by 24 volt DC electricity, with rates up to 50 products/min. There is no electric actuator or pneumatic cylinder reducing overall project cost and installation effort. Pre-wired for factory testing and quick installation.

KEY FEATURES AND BENEFITS

- Rate up to 50 products per min (Conditional on Application)
- Standard to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Electrical components have quick connect terminals for easy installations and expansion
- Durable, high tension O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- IP54 Standard, Up to IP67

HILMOT SPIRAL CURVE

CURVE MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot's spiral curve modules can be used as a stand-alone elevation change or combine together to create an inclining or declining spiral, which allows for an elevation change in a small footprint. The pre-wired spiral curve module has built-in zero pressure accumulation and can be networked with bus technology, which enables custom control and fully visible diagnostics. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Use as a stand-alone elevation change or combine together to create an inclining or declining spiral
- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension 5/16 O-bands
- Available ZPA Analyzer allows for system diagnostic and commissioning
- IP54 Standard

HILMOT MDR SPIRAL

SPIRAL MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot MDR spirals enable major elevation change in a small footprint. This allows height differences to be bridged while retaining a smooth flow of product. Built-in zero pressure accumulation (ZPA) and polyurethane sleeves on the rollers come standard. The modules are also reversible. Pre-wired modules can be networked with bus technology, which enables custom control and fully visible diagnostics. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Enable major elevation change in a small footprint
- Light to medium weight applications up to 75 lbs
- Ships In Manageable Sections For Easy Transportation
- Modular Design Allows For Easy Expansion
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension 5/16 O-bands
- IP54 Standard

HILMOT DOUBLE PICK & PASS

TRANSFER MODULE - Series 1500
Controls Platform: H-20 Auto Control

Hilmot helps AUTOmate traditional pick and pass transfer applications with our new HCAT90 transfer unit design. The Hilmot MDR double pick and pass transfer module can reach 40 cartons per minute (CPM). This system can route cartons or totes to zones that require picking, getting product to every operator without stopping. It is fast and efficient, perfect for pick-to-light or voice-pick systems.

KEY FEATURES AND BENEFITS

- Rate up to 40 products per min (Conditional on Application)
- Light to medium weight applications up to 75 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion

- Using durable, high tension Poly V belt
- Available ZPA Analyzer allows for system diagnostic and commissioning
- Postive Drive, Poly V
- Programming Required

HILMOT GRAVITY ROLLER CONVEYOR

INTERMEDIATE MODULE - Series 1500 NON-POWERED

Hilmot gravity roller straight modules are your most cost-effective solution for warehousing, loading, package sorting, and assembly or kitting application. These conveyors are designed with return downward flange for improved appearance, comfort and operator safety. The gravity roller conveyor is one of the most common pieces of equipment found in distribution centers and warehouses.

KEY FEATURES AND BENEFITS

- Light to Medium weight applications up to 200 lbs
- Efficient conveying with minimal pitch
- Non-powered conveyor
- Perfect for distribution, packing, manufacturing, and picking
- Manually convey light to medium duty loads with flat bottoms
- Side rail designed with a smooth flange down for operator comfort and safety
- Easy access and removal of product from both sides
- Operating with spring loaded rollers for easy removal and replacement
- 1200 lbs Maximum Load per 120IN Intermediate with supports on 10FT centers

HILMOT MDR BELTED HORIZONTAL 24" ZONE

INTERMEDIATE MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot's MDR belted horizontal modules have a high friction belt that holds product in location and helps maintain product alignment, perfect for print and apply applications and small and light products and bags. Higher angles are possible depending on the application. Pre-wired conveyor sections are networked with bus technology and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Sensitive Product Handling
- Take Up Bracket Per Zone for Belt Alignment
- T-Strip between belts for smaller products transition
- Ultra Co-Efficient Pyramid Belt Surface for higher traction & durability
- Light to medium weight applications up to 50 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- IP54 Standard

- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension belt
- Available ZPA Analyzer allows for system diagnostic and commissioning

HILMOT MDR BELTED DECLINE 24" ZONE

INTERMEDIATE MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot's MDR belted decline modules have a high friction belt that holds product in location and helps maintain product alignment, perfect for print and apply applications and small and light products and bags. Higher angles are possible depending on the application. Pre-wired conveyor sections are networked with bus technology and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Sensitive Product Handling
- Take Up Bracket Per Zone for Belt Alignment
- T-Strip between belts for smaller products transition
- Ultra Co-Efficient Pyramid Belt Surface for higher traction & durability
- Light to medium weight applications up to 50 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- IP54 Standard

- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension belt
- Available ZPA Analyzer allows for system diagnostic and commissioning

Conveyor Modules - H-20 Auto Control | REV E

Page 4 of 4

HILMOT MDR BELTED INCLINE 24" ZONE

INTERMEDIATE MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot's MDR belted incline modules have a high friction belt that holds product in location and helps maintain product alignment, perfect for print and apply applications and small and light products and bags. Higher angles are possible depending on the application. Pre-wired conveyor sections are networked with bus technology and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Sensitive Product Handling
- Take Up Bracket Per Zone for Belt Alignment
- T-Strip between belts for smaller products transition
- Ultra Co-Efficient Pyramid Belt Surface for higher traction & durability
- Light to medium weight applications up to 50 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- IP54 Standard

- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension belt
- Available ZPA Analyzer allows for system diagnostic and commissioning

HILMOT MDR BELTED DECLINE 30" ZONE

INTERMEDIATE MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot's MDR belted decline modules have a high friction belt that holds product in location and helps maintain product alignment, perfect for print and apply applications and small and light products and bags. Higher angles are possible depending on the application. Pre-wired conveyor sections are networked with bus technology and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Sensitive Product Handling
- Take Up Bracket Per Zone for Belt Alignment
- T-Strip between belts for smaller products transition
- Ultra Co-Efficient Pyramid Belt Surface for higher traction & durability
- Light to medium weight applications up to 50 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- IP54 Standard

- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension belt
- Available ZPA Analyzer allows for system diagnostic and commissioning

HILMOT MDR BELTED HORIZONTAL 36" ZONE

INTERMEDIATE MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot's MDR belted Horizontal modules have a high friction belt that holds product in location and helps maintain product alignment, perfect for print and apply applications and small and light products and bags. Higher angles are possible depending on the application. Pre-wired conveyor sections are networked with bus technology and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Sensitive Product Handling
- Take Up Bracket Per Zone for Belt Alignment
- T-Strip between belts for smaller products transition
- Ultra Co-Efficient Pyramid Belt Surface for higher traction & durability
- Light to medium weight applications up to 50 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- IP54 Standard

- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension belt
- Available ZPA Analyzer allows for system diagnostic and commissioning

HILMOT MDR BELTED INCLINE 36" ZONE

INTERMEDIATE MODULE - Series 1500

Controls Platform: H-20 Auto Control

Hilmot's MDR belted incline modules have a high friction belt that holds product in location and helps maintain product alignment, perfect for print and apply applications, small and light products and bags. Higher angles are possible depending on the application. Pre-wired conveyor sections are networked with bus technology and are easily configured for multiple applications. All electric operation ensures a consistent and quiet system that is easy to maintain.

KEY FEATURES AND BENEFITS

- Sensitive Product Handling
- Take Up Bracket Per Zone for Belt Alignment
- T-Strip between belts for smaller products transition
- Ultra Co-Efficient Pyramid Belt Surface for higher traction & durability
- Light to medium weight applications up to 50 lbs
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications
- IP54 Standard

- Tool-less mounting brackets for all electrical components
- Electrical components have quick connect terminals for easy installations and expansion
- Using durable, high tension belt
- Available ZPA Analyzer allows for system diagnostic and commissioning

HILMOT MDR BELTED INCLINE 36" ZONE

INTERMEDIATE MODULE - Series 1500

HILMOT SERIES1500, LIGHT GOODS, AUTO, ZPA, 24 VOLT DC POWER FEEDER 36IN ZONE	
QUICK QUOTE#	Description
FN15C1LD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 15IN BF, RSL 7.5, LH, AUTO CONTROL
FN15C1RD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 15IN BF, RSL 7.5, RH, AUTO CONTROL
FN21C1LD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 21IN BF, RSL 7.5, LH, AUTO CONTROL
FN21C1RD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 21IN BF, RSL 7.5, RH, AUTO CONTROL
FN27C1LD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 27IN BF, RSL 7.5, LH, AUTO CONTROL
FN27C1RD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 27IN BF, RSL 7.5, RH, AUTO CONTROL
FN33C1LD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 33IN BF, RSL 7.5, LH, AUTO CONTROL
FN33C1RD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 33IN BF, RSL 7.5, RH, AUTO CONTROL
FN36C1LD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 36IN BF, RSL 7.5, LH, AUTO CONTROL
FN36C1RD	36IN INTERMEDIATE, POWER-FEED, DECLINE, FWB, SERIES 1500, 36IN ZONE, 36IN BF, RSL 7.5, RH, AUTO CONTROL
